ASSESSMENT NOTICE  
TONOPAH GIPSY QUEEN MIN-  
ING COMPANY.Location of principal place of busi-  
ness, San Francisco, California. Lo-  
cation of Works, Tonopah, Nye Coun-  
ty, Nevada.Notice is hereby given that at a  
meeting of the Board of Directors,  
held on the 13th day of February,  
1914, an assessment (No. 31 of one  
(1) cent per share was levied upon  
the capital stock of the corporation,  
payable immediately in United States  
gold coin to the Secretary, at the  
office of the Company, room 265 Russ  
Building, San Francisco, California.Any stock upon which this assess-  
ment shall remain unpaid on the 25th  
day of March, 1914, will be delinquent  
and advertised for sale at public auc-  
tion, and unless payment is made be-  
fore, will be sold on Wednesday, the  
25th day of April, 1914, to pay the  
delinquent assessment, together with  
the cost of advertising and expenses  
of sale.By order of the Board of Directors,  
CHARLES D. OLNEY, Sec.Office, room 265 Russ Building,  
San Francisco, California. \$725-M35No trouble to get anything in the  
world with a Bonanza want ad.NEVADA PLACER FIELD BETTER  
THAN EARLY DAYS OF KLONDIKE

Little incidents lead to big results.

Tonopah was discovered because of a

strayed burro. A thirsty man sup-

plied a little snow water in a gully

spied a five dollar nugget on the

edge of the pool. And this led to

six ounces of gold being taken out

of ground two feet long, two feet

wide and less than three feet deep,

and the gold was taken out in one

short day. And this occurred in

Willow creek, one of the widest,

longest and best watered canyons of

the Battle Mountain range, says the

Battle Mountain Scout.

The knowing ones, and there are

more than a dozen of experienced

Alaska placer miners now in this

field, declare that Willow creek will

far surpass Copper canyon in rich

and extensive production. This is the

sentiment of the week, but we have

not space to go into details.

Copper basin during the week has

also met with so much rich develop-

ment that with its great area and

large number of gulches, may yet ex-  
ceed both Copper canyon and Willow  
creek. A number of leasers got to  
work in Long creek and almost im-  
mediately began rocking out the gold.  
Panfuls of dirt there have yielded as  
high as \$4. One man sneered at an-  
other's find, saying, "I can't think  
much of that ground, as the biggest  
piece of gold taken out was worth  
only a dollar." Five, ten, twenty dol-  
lar nuggets are the rule there.

In lower Copper basin, three miles

from Long Creek and only six or  
seven miles from Battle Mountain  
town, they are down to bedrock and  
have the rich dirt. Not in one place,  
but in several. They are construct-  
ing a ditch there and will do some  
good, careful sluicing and save all  
the fines.

At Snow's gulch, six miles from

town in a more westerly direction,  
from measured ground through an im-  
proved rocker they got \$4.85, careful-ly weighed from a cubic yard. And  
this is just only a start.In Box canyon, Philadelphia can-  
yon, Cottonwood and Eldorado, simi-  
lar successes are being had.Thirty or forty miles to the north-  
east from Copper canyon region, in  
the Mud Springs and Tenabo sec-  
tions, the best of reports come, al-  
though they are there bothered more  
with deep snow and surface waters.  
Many prospectors are coming in and  
much active work is started daily.Thirty-five pounds of gold from one  
crude rocker in about three weeks is  
the record from old Copper canyon,  
the pioneer in this placer develop-  
ment. Nearly \$10,000 was the value  
put upon this shipment this week.  
And it will do better in the future.  
Just think of that production, and  
also of the predictions of old placer  
miners that Willow creek or Copper  
basin promises to surpass Copper  
canyon in their yield of gold just as  
soon as they can get into good work-  
ing condition. And that with forty  
more canyons and gulches yet to  
be explored. Expeditions have gone  
out this week to the westward to  
prospect canyons which reach up to  
the apex of the Battle Mountain  
range, just as do Copper canyon and  
Willow creek. With the same amount  
of prospecting similar results can be  
looked for.Fred Roseburg, an old Alaska pla-  
cer miner, estimates this discovery  
as the equal of the Klondike or  
Nome. In fact, considering the cli-  
mate and advantages of transporta-  
tion, he regards it as much superior  
to any placer discovery yet made.  
Sluicing can be carried on almost the  
entire year and so can dredges be op-  
erated. And as for water, there is  
plenty of water if properly handled.  
Food, supplies and labor in plenty  
and inexpensive.Our placer developments have hard-  
ly started.

## THE KINDERGARTEN

(By Miss Irma Poltz.)

Our children here in Tonopah live  
such out-of-door lives that they are  
wonderfully natural and healthy. They  
drink in the pure, exhilarating air  
and absorb that truly wonderful  
gift, sunshine, which fairly radiates  
from their clear, bright eyes and  
beaming faces. A visitor at our To-  
nopah kindergarten once said, "Oh,  
don't you have trouble with these  
naughty little boys?" They are not  
naughty children, but sweet, lovable  
little humans, so natural, so full of  
life and energy that they fairly bub-  
ble over.The child will direct his energy  
along some path, be it good, bad or  
indifferent. In kindergarten these lit-  
tle beings, some of whom live much  
nearer to mother earth than they do  
the soap dish, march, sing, listen to  
stories, talk about the wonderful  
things that they see, skip, gallop,  
work with their hands, happy in  
their work or play. We cannot saythat the child is instructed, but his  
energy is so guided that by his own  
selfactive efforts he develops and  
comes in closer relationship with his  
environment.We see the types of the unnatural  
child in the city. Kindergarten does  
much for the dull-eyed child of the  
slums and helps the spotted, fretful  
child of the wealthy parents—but  
how much more opportunity for ac-  
complishment is the kindergarten out  
here in God's broad breathing space.  
The child of four or five years of age  
so full of life and activity is made  
to use this activity along the lines  
which will develop him mentally and  
physically. The kindergarten child  
in Tonopah at least is not ignorant  
of the beauties of nature even if he  
cannot actually see them, for there  
are stories and pictures about the  
birds, flowers, trees, lakes, fishes  
and the farmer.Only a few months have gone by  
since Tonopah opened the doors of  
her first kindergarten—yet what a  
wonderful change has come over  
the sixty-five little pupils. Little  
hands that seemed all thumbs now  
handle with ease the pencil, clay,  
blocks, beads, pegs, scissors, etc. The  
children now create things which  
show quickness in thought, skill and  
originality.Somehow we can't help but feel  
that these children who are in readi-  
ness to enter the first grade, and to  
receive higher knowledge will have  
a greater ability to grasp the deeper  
problems of life.

FURNER NOTICE TO EAGLES

All members of Tonopah Aerie F.  
O. E. No. 271, all visiting brothers  
are requested to be present at the  
funeral services of Wm. Kelly & Cav-  
nagh at 2 o'clock p. m. Saturday,  
March 21, to attend funeral of our  
deceased brother, Peter Kelly. By

STOCK SCANDAL  
IN A SALT LAKE  
DISAPPEARANCEMINING BROKER LEAVES HIS OF-  
FICE MONDAY WITH BIG  
SUM IN CURRENCYSALT LAKE, March 20.—Milton D.  
Joseph, a well known stock and min-  
ing broker for 14 years, has been  
missing since Monday with \$53,555 in  
currency, which he secured through a  
sale of 1000 shares of Utah Cop-  
per Company stock.The story told by Pinkertons is that  
he operated in part through the Con-  
tinental National bank of Salt Lake  
city, whose president, J. E. Cosgriff,  
they say, has covered the value of  
the stock with his personal check and  
the money has been sent to the New  
York brokers who delivered the stock  
to the bank on Joseph's order. Mrs.  
Joseph is said to have assigned all  
her property to Cosgriff, which is re-  
ported to cover largely Cosgriff's loss.  
Pinkerton detectives have been re-  
tained to seek Joseph.Joseph telegraphed Thompson, Towle  
& Co., brokers of New York, last  
week to buy 1000 shares of the stock  
for him. The stock was sent to the  
Continental National bank in the  
shape of 10 negotiable certificates,  
with a draft for \$54,333.10 attached.  
Joseph called for the stock Monday  
forenoon and secured permission to  
take it away without covering the  
draft, by telling Cosgriff that he had  
a customer for the stock who did  
not wish to be known in the transac-  
tion.As Joseph had been a customer of  
the bank for several years and had  
always been regarded as trustworthyCosgriff did not suspect deception.  
Joseph then took the stock to a brok-  
erage house and sold it for \$53,555,  
demanding currency and again say-  
ing that he had a client who desired  
to be unknown in the transaction.  
The money was obtained for him,  
mostly in notes of \$20 denomination.  
Joseph went to his own office,  
where he left word that he was going  
to a nearby town and might not re-  
turn until Tuesday. After waiting  
until yesterday, the Pinkerton detec-  
tives were employed. Joseph has sev-  
eral relatives in Salt Lake City. He  
is a native of Cincinnati.

## FANCY IRRIGATING FLUID

George W. Warren returned to Big  
Pine Sunday from Spokane, to ar-  
range for improving his property near  
the foothills northwest of there, near  
the Bishop road. He expects to plant  
25 acres of apple trees this season,  
as well as to improve his pumped  
water supply.Analysis of water from his miner-  
alized well shows that it is substan-  
tially the same as that from Shasta  
and from other more noted spots,  
with a little advantage in favor of  
the Inyo product. The large well  
from which his property is irrigated  
shows the same kind of liquid, with  
the difference that the pipe went on  
through that stratum and penetrated  
unmineralized water lower, and the  
flow is diluted. Not many ranches  
can irrigate with the equivalent or  
superior of Shasta water.—Inyo Reg-  
ister.A store that advertises must be a  
store of values—of "bargains"—or  
the advertising would not pay.Notice of Application for Permission  
to Appropriate the Public Waters  
of the State of Nevada.

Application No. 2916.

Notice is hereby given that on the  
17th day of March, 1914, in accord-  
ance with Section 59, Chapter 149, of  
the Statutes of 1913, one L. A. Mo-  
berry, of Oakland, County of Al-  
ameda, and State of California, made  
application to the State Engineer of  
Nevada for permission to appropriate  
the public waters of the State of  
Nevada. Such appropriation is to be  
made from Donovan Creek, at a point  
in the S. W. 1/4 of S. W. 1/4 of Sec. 31,  
T. 19 S., R. 56 E., M. D. B. & M.  
(approximate), by means of a dam  
and 100 cubic feet per second is to be  
conveyed to Township 21 S., R. 53 E.,  
M. D. B. & M., by means of flume,  
ditches and pipes, and there used for  
irrigation purposes. Water not to be  
returned to stream.Signed: W. M. KEARNEY,  
State Engineer.Date first publication, March 20,  
1914.Date last publication, April 17, 1914.
